## SUMMARY

---

I am currently a fifth-year Ph.D. student at school of computer science in Fudan University, under the supervision of Prof. Xiangyang Xue. I will graduate in June 2022. At present, I devote to the research of adversarial attacks, face recognition, generative adversarial networks, expression classification, person re-identification with deep learning. I have already published 8 academic papers, including 5 CCF-A papers (all as the first author), 1 CCF-B papers and 1 CCF-C papers. I also have applied for 5 patents, 4 of them have been authorized.
