EXPERIENCE

PING AN   *2018.09-2019.06*
INTERN FOR FACE FEATURE LEARNING
• Facial expression recognition under few-shot setting: This project aimed at recognizing subtle facial expression in the insufficient training data condition. I was primarily responsible for algorithm study.

TENCENT   *2020.06-2021.01*
INTERN FOR THE SECURITY OF DEEP LEARNING
• Adversarial attack: The project targeted to study the robustness of the deep neural networks and further generate transferable adversarial examples on both face recognition and general classification tasks.
